

MILLESIME GROUP

VINTAGE 19
LOVERS SINCE 97

COMPANY PROFILE | Millesime Group HISTORY

Ecclectic, curious, eternal boy on his way to cosmopolitan London and the opened cultures of the world. Francesco Esposito is truly one of the leading experts and one of the economic protagonists of the vintage market because he has gone through seasons and roles in a world of great change. Starting from passion, from “door to door” he arrived to create the first warehouse in Herculaneum in 2001.

Over the years, Francesco Esposito’s company has grown more and more and, to date, he is the owner and founder of three companies specializing in Vintage. Millesime was born in 1997 from the passion of Francesco to affirm the Value of Fashion which is expressed in its refinement of lines and materials, of sensations and functionality that becomes the History of Beauty.

The historical, emotional and material research is offered with the awareness of building something precious, of vintage. Vintage for Millesimè is far beyond recovery, recycling, experience, it is the soul, the inspiration, the guide, the background of the product and consumption, of the market and of the meeting with the customer. The Millesimato marks the historical period, identifies and rewards a production, making it “special”, out of time or timeless, collectible. The company has “exploded” in recent years, fueling the growth of vintage in the economy: it has thus reached an area of 2000m2 where more than 60 tons of clothing are being processed per month, selected in over 300 baskets.

With the support of his partners, Anna and Giuseppe, he moved from a few tens of millions of lire to millions of euros with contacts and sales all over the world, these are the indices that make Millesimè recognized as the leading reality of international vintage. In 2015, this company closes a circle in the corporate organization by seizing the opportunities arising from the growth of the sector.

In Pastorano the time has come to act as a filter between the large suppliers of items to be selected (charity bags), retail served by Millesime: wholesale (wholesalers) and international distributors have appeared in vintage but also expert and passionate end consumers to talk to directly through the web. Kilosale becomes a reality of professional selectors who offer a quality products to international distributors and wholesalers. ■

“ In a world where I was selecting garments for the best shops, thinking big was madness. But big business comes from those who know how to read opportunities in a changing society, seizing the right way to go.

Francesco Esposito

”

COMPANY PROFILE | Millesime Group VALUES

The world of fashion is changing and data and laws tell us about this transformation. Compared to 2017 (Sole 24ore source), when fast fashion far exceeded Second Hand fashion, to date preloved clothing has a value of around 24 billion in the United States alone and it is expected that in 2023 it will reach 51 billion. In a historical moment in which the green vision is an essential prerogative for a company ready to respect the environment and its neighbor, Millesime srl is already a consolidated reality, given that it has been moving on the path of eco-sustainability for more than twenty years.

Nothing is created, nothing is destroyed, and everything is transformed not in substance but in use. The owner, Francesco Esposito is a popularizer of the history of fashion, it is no coincidence that he was born within his company in a historical archive of garments ranging from the beginning of the 1900s to the 2000s, a place of culture in which fashion scholars, designers, stylists, and costume designers converge to carry out research. ■

“

By 2030, fabrics placed on the EU market should be long-lasting and recyclable, largely made with recycled fibres.

Virginijus Sinkevicius, European Commissioner for the Environment

”

PEF (Product Environmental Footprint)

The European Community is working on a single brand that identifies the life cycle of the garment.

A person throws about 11 kg of clothes and shoes a year.

European Commission Brussels

In Italy, Second Hand has reached 28 billion, +28% growth in 5 years.

WAY TO PURCHASE

BY KILO

KILOSALE: You can buy the first choice quality, grade A, by category in sacs of around 25kg carefully selected. Our minimum requested purchase is qt.1 bag (about 25 Kg) x qt.10 categories (at least 70% of the categories has to be unbranded). While, the categories are the first choice quality - grade A. So the minimum order starts from 250kg. If you need smaller quantities please take a look at our HandPick solution.

BY PIECE

HANDPICK: You can choose by piece what you need for your shop. We have more than 450 categories available right now. The minimum order quantity required is 500€ and you must choose at least 10 different categories. The order needs to be balanced between branded (30%) and unbranded (70%) categories.

VIDEOCALL: Starting from the COVID period, we have introduced a video call service, to help our foreign customers who have difficulty to come to our warehouse. You could have a call with our personal shopper who will show you the garments of the categories that you need. Just as if you were physically in the warehouse.

RECAP SERVICES

KILOSALE

Minimum Order: 10 sacks from 25kg each one.

HANDPICK

Minimum Order 500€ with 10 different categories.

SHIPMENT: We manage, organize and monitor import/export shipments by sea, land or air.

Once the shipping order is received, we assemble the loads of goods and manage all the relevant documentation (bills, DDT, customs documents, invoices, etc.), remaining in constant contact with suppliers, customers and commercial agents. We prepare quotations for customers, negotiate commercial rates with suppliers and organize transport; then we plan and compose full loads (FCL, Full Container Load) or cargo combinations in groupage (LCL, Less than Container Load).

We then take care of the booking import/export, or the booking of the means of transport: ship, air, land transport. We handle international shipments of goods on an administrative and operational level, from the moment the order is made until delivery. The delivery time depends on the country of destination and on the kind of chosen shipment from customers.

In addition to taking care of the logistical organization of the shipment, we prepare and check the transport documentation that must accompany the goods, as per regulations: bills of lading in export, release policies in import, goods insurance, customs certificates necessary to cross the border. The documentation accompanying the cargo is also essential to track the shipment, keep the customer up to date on the movements of the goods and if necessary intervene on the load through its network of intermediaries, should problems arise during transport.
